

Wut'z New

Hi everyone!

I hope you all are enjoying the winter so far. February seemed to go by in a flash! Boston hasn't gotten much snow, but apparently we should be getting some this weekend (Hopefully, enough to improve the skiing conditions!)

Things are going well for me where I'm student teaching. I am coaching our girls basketball team and went to a tournament at The Meadowbrook School (where Hailey Rohall goes!) and I saw Katie Bettenhauser there! Her school earned second place in the tournament!

Other than coaching, I'm just waiting to graduate in May and for camp to get here! Luckily, we are going to have some get-togethers again this year, so I'll be able to see you before camp, which will be amazing.

A lot of you have e-mailed and written me, but I would love to hear from more of you. Please keep in touch! You can e-mail me at tcorcoran@campwaklo.com.

Check out the next page for some updates on staff for 2010!!

INTRODUCING OUR 2010 STAFF!!

We have a great staff getting ready to join us for this coming summer. They have been hired from all over the world and are so excited to meet you!!

Down at Woodwind, we will have Julie Saddler as our Head of Riding. Joining her are Sara Locke from Scotland and Katherine Smith from England. Amy MacMahon will head up our Wilderness Program and teach gardening and camp craft. Tennis will have an Australian influence as both Kate Adams and Rachel Kelly hail from down under.

Patsy Neville will be back on the lake for wakeboarding and waterskiing. Joining her will be Samara McConnell and Katie Buchanan who both come from New Zealand. At windsurfing, Amy Palmer and Kay McCann from England will help you master the board. Kelly McGowan will once again head up our sailing program as well as taking on the hugely important role of Area Head for our LTG's.

At swim, you'll find Philippa Roso and Trista Wright from Australia, Helen Allan from Scotland, and Chelsea Pompadur will also mix duties at the swim dock as well as on the archery field. Helping her at archery will be Chloe Groves from England.

Diane Miller will take on the role of Area Head in Sleepy Hollow again as well as teaching dance and waterskiing—certainly a talented lady! Helping her at dance will be Kim Dench from England. Lauren Trabucchi, Amanda Barlow, and Lizzie Pyle will head up our drama and musical theater program.

Becs Batt will split her time between the crew dock and the arts and crafts tables. Michelle Mach from Connecticut will help her out with art as well as teaching you volleyball and softball. Anya Mabbott will help her at softball and then join Becs down at crew.

Laura Devine from Scotland will capture you all over camp on her camera and Sarah Bell from New Zealand will take you biking or help you work on your fitness over the summer. Assisting her with that is Susan Hearty who will also teach gymnastics with Simone Kupisz—and they both hail from Scotland.

We know you'll love meeting them all this summer!!

Helloooooo Camp Wa-Kloooooo,

The last three issues I've been reflecting on my initial connections to Wa-Klo with the community, environment, and within myself. My connections to Wa-Klo run deep, and through these connections I've been better able to understand myself and see the world with a broader perspective.

Even though I started making these connections in 1982, with each passing year I still gain greater respect for the world's natural resources, develop and utilize my innate strengths while working on my personal weaknesses, and my heart is continually filled with the laughter and joy of each Wa-Klo girl. My smile is a melting pot of all that is shared during a precious summer at camp. The longer I attend Wa-Klo, the better it gets.

Each year brings a Wa-Klo girl a special gift. Sometimes the gift comes in a form of new friend or a magical experience. The gift maybe gained by acquiring a deeper understanding of yourself and your place in the world or forming a vast appreciation for those that you love and the life that you have.

Being open to the connections and the gifts that camp brings can only be done by living in the now, appreciating the moment, and seeing what "is" instead of what "was" or "could be." Try to absorb each experience as it happens, for every day shares its light with all who live in the world.

I hope the summer of 2010 brings you an unexpected connection or a special unique gift that is designed especially for you.

Always, Miss Chenet
